Predlog dveh glavnih dopolnil v igralnih pravilih:

Proposal for not using 50 moves rule:

Playing Rules Server and Postal

Games shall be played in accordance with FIDE Laws of Chess, with exception for the 50 moves rule of draw, provided that it can be proved by a Table Base position – at the moment only Nalimov's Table Base for upto 6 men position is allowed to be used – that there is a win, without capture or pawn move, that exceeds 50 moves, or any other exception as otherwise defined in these rules or other ICCF Rules.

B)

Only one guideline had a split decision, the Guideline for 7c) had two alternative wordings.

a) ...Computer failure is NOT an acceptable reason for requesting a special leave...

b) ...In the event of a computer malfunction a special leave of up to 10 days is permissible, but should only be used once per tournament.

...Computer failure is NOT an acceptable reason for requesting a retroactive special leave...

Sklep zbora SLO CORR 2010:

Slovenija glasuje za dopolnilo, da okvara računalnika ni več razlog za izredni dopust.

Na predlog o uporabi Nalimov 6 pri teoretičnih zmagah, ki zahtevajo >50 potez ima Slovenija pripombo, da je dikcija nedodelana ter da je potrebno jasno zapisati kako je z nadaljevanjem partije in morebitnim reklamiranjem zmage.

Opozoriti na možnost zavlačevanja v nedogled (namerno igranje neidealne linije Nalimova) in predlagati, da bi se reklamacija zmage po Nalimovu 6 upoštevala že kot takojšnja zmaga v partiji.

V primeru, da se pravilnik vsaj ne razjasni, se glasovanja vzdržimo.
